

Zero Waste Mason

Join Mason's collaborative campus-wide program that aims to reduce waste generation at the source and improve waste diversion at the bin.

Better Bins Preview

Scan QR code to learn more!

University Sustainability will be introducing new **Zero Waste Mason (ZWM)** standards by moving the Better Bins Preview's new waste receptacles to different types of campus buildings each semester. The Better Bins Preview will assess the impact of new ZWM labels and standardized waste receptacles.

Support George Mason University's goal of **diverting over 90%** of waste items away from the trash!

Carefully **SORT** waste at the bin!

Streams = Cans & Bottles, Paper, Trash, and in select locations Compost!

Or even better – choose **REUSABLES!**

Refill & reuse water bottles, reusable bags
